GF Machining Solutions launches customer financing program in partnership with DLL

GF Machining Solutions, a division of the Georg Fischer Group, has entered into a partnership with DLL, a global asset finance company for equipment and technology, to offer customized financing solutions to GF Machining Solutions customers through its new financing program named GF Machining Solutions Finance.

The financing program includes a variety of financial solutions for the entire technology portfolio of GF Machining Solutions. The financial solutions can be customized to meet individual customer needs and financial requirements and will be available in most European countries as well as North and South America. This offering ensures customers will have the option to schedule payments to fit fluctuations in cash flow, to easily upgrade to the latest equipment, or to finance new manufacturing investment projects.

Aitor Bustinduy, CFO of GF Machining Solutions, expresses his enthusiasm about this new partnership: "With GF Machining Solutions Finance we can now accompany our valued customers throughout the complete lifecycle of their manufacturing projects. Not only with cutting-edge technology, application expertise, digital solutions, and after-sales services, but also by supporting them through a wide range of financing solutions fully adapted to their needs, all of it through a single point of contact."

Scott Fosdick, Head of Sales, Marketing, Business Development and Communications at GF Machining Solutions, is excited about the roll-out of the new financing program: "This will allow GF Machining Solutions to offer flexible and customized finance options to our clients, herewith answering their needs in a very competitive market. On top of the fantastic line of products and services that is already part of our solutions portfolio, we now round it off with attractive financing options."

Marco Wagner, VP New Business Development at DLL, states: "The machine tool industry is rapidly changing, and innovation and technology are of utmost importance to keep up with a demanding market. GF Machining Solutions is a leading machine tool provider, and we are proud that through this global partnership we can support them in making their high-quality machines more accessible for their customers."
