WIRE SPOOLS

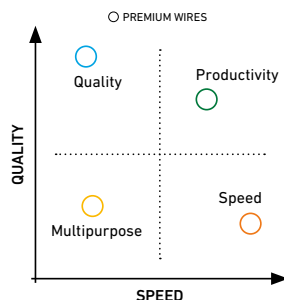

# We are happy to offer you our exclusive experience kit

Congratulations on being a GF MS customer.

GF MS EDM machines are delivered with multiple erosion technologies to better match your daily needs. These technologies are developed and fine tuned using the wide range of certified wires offered by GF Machining Solutions and are perfectly adapted to your machine requirements. This experience kit gives you access to our premium wires portfolio to test on your machine. For a complete experience of the best possible performances, you must use them with the associated technologies. How to do?

## 1. Find below your wire:

- **Surface quality:** AC Cut AL 900, AC Cut AE 900
- **Productivity:** AC Cut VS 900
- **Speed:** AC Cut XL
- **Multipurpose:** AC Brass 900, AC Brass SP 900, our new NCX prototype

## 2. Select the right erosion technology on the HMI:

Objective	Wire name	CUT P Erosion Technology	CUT x000 Erosion Technology
Quality	AC Cut AL 900 AC Cut AE 900	AC Cut AH 900	AC Cut AH
Productivity	AC Cut VS 900	AC Cut VS 900+	AC Cut VS 900
Speed	AC Cut VH	AC Cut VH	
Multipurpose	AC Brass 900 AC Brass SP 900 NCX	AC Brass 900	AC Brass 900

## 3. Load the technology

**YOU DON'T KNOW HOW TO LOAD THE RIGHT TECHNOLOGY?**  
Scan this QR code

**WANT TO KNOW MORE?**  
Discover our full range of Certified Wires here

## 4. Test your wire

## 5. Need application support to perfectly start-up the technology?
