# Facilities

⚠️
**Important remark**

To be able to create Facilities, you must be logged as:

- Tenant Admin
- Workshop Manager

## Content:

---

## 1. Create a facility

to be able to create a facility you must click on the "**Facilities**" tab then click on the "**Create Facility**" button.

A new popup window appears and you have to enter a new name for your "**Facility**", and then click on the "**Confirm**" button to create it.

Then you will be able to see the facility you just created.

---

The ID and the facility name are visible. You can change or remove them by using this button .
